

Charles River Anywhere

Secure, Browser-Based Access to Charles River IMS

Charles River Anywhere helps investment professionals manage and monitor portfolios, compliance, trades and post-trade information in real time. While your entire team can leverage Charles River Anywhere, it's designed for financial advisors, executives, compliance officers and other users requiring more flexible browser-based access to order, trade and compliance data.

Real-Time Portfolio Management

Firms can more effectively manage and monitor multi-asset portfolios, including Unified and Separately Managed Accounts (UMAs and SMAs), with Charles River Anywhere.

- Monitor portfolio events including cash deposits, portfolio drift, and account openings via notification dashboards
- Create/manage asset allocation, security or UMA models
- Utilize suitability attributes to help ensure that models are appropriate for client risk profiles
- Assess exposure in any available classification scheme including sectors, regions and countries
- View top/bottom 10 holdings based on real-time trade and valuation data
- Submit and track orders through execution
- View account information, including model, benchmark portfolio and manager data
- Filter accounts to view specific security holdings and identify exceptions such as portfolio drift
- Review the effect of proposed orders on a portfolio's exposure profile in real time
- Perform high-volume rebalancing, tax harvesting and targeting
- Schedule recurring invest/raise cash events
- Monitor compliance alerts, warnings and contributing factors, and resolve compliance issues

Key Capabilities

- Rebalance portfolios to help ensure compliance with model targets
- Implement options strategies across multiple accounts
- Analyze tax impact of proposed orders in portfolios & households
- Monitor & manage:
 - Cash balances
 - Securities in watch lists
 - Pre- & post-execution compliance issues
 - Status of post-trade orders & allocations

Users view the information they want from an easy-to-use, configurable dashboard. Data can be displayed in a number of chart or list formats.

Screenshots are for informative purposes only; no live data being used.

Mobile Device Access

An intuitive dashboard makes it easy to manage accounts, orders, trades, and alerts from the field. Users can access a subset of these functions from any mobile device.

Trading and Order Management

Actively manage the entire order life cycle:

- Create orders and modify order details
- View and modify order details and allocations
- Filter displayed orders using pre-configured queries
- Analyze gain/loss and other impacts of proposed orders across multiple accounts before placing order
- Change layouts for different user roles
