

Trumid Provides Trading Efficiency and Market Intelligence Through Charles River IMS

Firms managing corporate bond portfolios can access Trumid's electronic corporate bond trading platform directly through the Charles River Investment Management Solution (Charles River IMS). The collaboration between Charles River and Trumid supports the full-trade life cycle, providing improved workflow efficiency before, during, and after execution. The Trumid platform helps achieve greater trading efficiency and provides access to innovative market intelligence tools.

Orders can be placed in Charles River IMS and sent directly to Trumid for execution. Ability to route conditional and limit orders allows clients additional ways to access liquidity and quickly engage in trading opportunities within Trumid's broad network of participants. Direct connectivity within Charles River IMS allows managers to ensure orders are consistent with investment directives, internal risk and compliance checks while helping to improve trade transparency throughout the lifecycle of a trade. By reducing reliance on multiple interfaces, traders can more easily access liquidity in rapidly changing corporate bond markets.

Charles River Order and Execution Management

Charles River IMS provides an Order and Execution Management System (OEMS) seamlessly integrated with data, FIX connectivity, and trade analytics. Trade decision support capabilities help traders find liquidity, execute trades across asset classes and currencies, and ensure trades are compliant.

The Trumid Platform offers Charles River Clients:

A large and diverse network of over 620 buy and sell-side institutions

Protocol flexibility, providing traders the option to trade anonymously or to negotiate directly with permissioned counterparties

Market intelligence tools that calculate real-time liquidity and on-demand bond pricing, allowing identification of the highest quality trading opportunities

Complete trade lifecycle support, including pre-trade price transparency
